Project

Campus Entrepreneur

M.Svethlana and Baby Sindhuja from MBA 1st year had participated in the National level event and also completed an internship for a period of one month at Money Wizards in collaboration with The Principal of Mutual Funds (focusing on world class financial literacy and money education to Corporate, Business schools, Working adults, Women, Students to provide a platform for them in a Financial Sector).

One day in September this year, I read an article in the economic times newspaper about the internship cum National level competition in collaboration with the Money Wizards and in association with Principal Mutual Funds and to know it deeply, I visited their website which they mentioned and found that more than 140 colleges are participating in this competition along with IIM's (Indian Institute of Management) and this interest me to take part to become a good competitor to other colleges. I applied to it through their website application form where I had undergone with a small interview and a few formalities later, I received an offer letter and an invitation to participate in their National wide event.

I was asked to form a team of three in size including me considering my team as a vice president and me as a president to reach the objectives successfully which they set to all the colleges participated. After the formation of team, we were given a set of entrepreneur strategies to create awareness to mass audience through posters, social media marketing and making strategic plans which helped us for better participation and followed by marketing round where we were considered as a marketing managers to build an optimistic new relationships with the customers regarding a product called Youth Money Olympiad(which helps to improve financial literature)and followed by third round where we were considered as a sales manager to look after the response of the relationships which was built in the previous round. Later based on that response analysis, we made a new plans to improve the quality of the response and to my surprise there was a huge response from a large group of people, nearly 200 members showed a sanguine response, among them 150 members participated and seven got selected as winner in the college level and also selected to participate in National level second round to compete with the winner groups from the other more than 140 colleges. I am proud to be part of it as I am the first student to participate representing our college and enrolling the college name in their list. I got an incredible experience out of it.

They gave us certificates and cash prize of Rs.2500 and pen drives for getting short listed as one of the best competitor and the results for the competition will be announced in the month of May 2018.Hopefully we will win in the competition and get a National wide exposure and win a prize for the college.

LETTER OF RECOMMENDATION

This is to certify that Svethlana M was employed with Laugh Out Loud Ventures during the period July 2017 to June 2018, as an HR Associate. Her conduct and performance during the internship were excellent. She was responsible for potential employee lead generation (primarily short term - the nerve centre of our business - in marketing and sales), final stage interviews with promising intern candidates, short term creative outreach campaigns, and core skill training in leadership.

The following were Svethlana's key achievements during the internship:

Interviews with key Marketing and Sales personnel

- Svethlana conducted 100+ interviews with key interns and full time potential employees within our Marketing and Sales department - the nerve centre of our organization. She showed excellence in this by having at 40%+ conversion rate to hire from initial lead, and by identifying an advanced level of skill in 30+ interviewees; we were able to offer them a more senior role, and ensure that we were able to adequately leverage all their skill.

Best in class outreach for recruiting

- Svethlana was able to quickly grasp the need of a recruiting situation (the problem statement was to source email IDs of students of a very specific type - those with good communication skill but with low previous experience, for a Marketing and Sales role - ideal candidates for a marketing traineeship). Within a couple of weeks, she was able to find multiple interns for this role, and ensure that she was a complete part of the team.

Leadership training

- Svethlana worked with various Team Leads - the most senior interns we have - to make them more effective leaders.

Svethlana is a valued colleague and trusted team player. Everyone in our team who worked with her had immense respect for her. We will take every opportunity to work with her again; we are confident that she will be an asset to any organization.
