(Autonomous), Affiliated to Osmania University
Accredited by NAAC with A⁺ Grade (3rd cycle), CPE by UGC

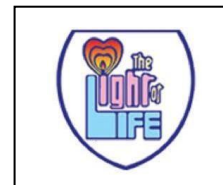

Mehdipatnam, Hyderabad.

CRITERION – VII

Institutional Values and Best Practices

7.1.3 Facilities in the Institution for the management of the degradable and non-degradable waste

7.1.3 Waste Management Activities conducted 2022-23

Vermicomposting and Sale

Target Group: Staff and Undergraduate students of St. Ann's College for Women, Mehdipatnam.

Plan of Action: With the help of student volunteers, Dr. Tasneem Jahan gave introduction of vermicomposting to the staff members and the Undergraduate students of our college. This was an awareness and training programme in organic farming using vermicompost. It was aimed at providing an awareness and hands-on experience to the students to take up organic farming in their premises. A stall was also put in the college campus in the second week of August by the student volunteers to sell the packets of vermicompost at a very reasonable price. The staff and the students were enlightened about the importance of vermicomposting as a nutrient rich natural fertilizer for the plants. They were explained about the various benefits of vermicompost in comparison with the other commercially available fertilizers

Number of Student Participants: 10

List of Student Volunteers: II BZC

- Shriya Uday

these products we have not only helped that certain individual who has this talent, but also created awareness that waste products can turn out to be immensely beautiful if a little hard work and dedication is given to them. Products like pens made with glass, horse carriage, show piece of birds, scent bottles, show piece of flowers with the starting letter of a name and beautiful baskets were all made by broken glasses and happily all of them were sold off by that day itself. Proudly, we sold about 40 items and also received various orders proving that the idea of selling these glass pieces created a boon for environmental friendly products.

25th August 2022

Dept of Zoology & Genetics in collaboration with St. Pious X Degree & PG College for Women organized "WOW" (Wellbeing out of waste)-Solid waste management practices, Industry, Academia interactions. To create awareness on Solid waste management- for the conservation of natural resources, and to reduce pollution

Making of paper bags

Sale of Biodegradable Sanitary napkins on 17th November,2022

Menstrual Health and Hygiene is essential to the well-being and empowerment of women and adolescent girls. It's a fact that plastics have invaded our lives. In order to overcome the ill effects of chemical based Sanitary pads, APNA Green Products organization has come up with an eco friendly initiative of Bio degradable sanitary pads which are made of Corn, banana and bamboo fibre which are skin friendly and chemical free. They have put up a stall for the sale of Bio degradable sanitary pads in the college premises. The sale created a big impact on many of the faculty and students as they shifted from regular pads to biodegradable pads. The students of Environment education volunteered for the sale of the products.
