Centre for Women's Studies organises a guest lecture on Water Conservation on 8th December, 2022

Water is the most precious gift human ever got but in today's scenario. We are exploiting it not only in terms of quantity but also in terms of quality. The time is not far away from now when there will be no water. To make our students aware and discuss the need of hour, a guest lecture on water conservation was organized by Centre for Women's Studies. Ms. Husna, College coordinator, Youth for Seva NGO who emphasized on the use of water wisely and the need of such talks in present scenario of the country. Students were quite enthusiastic and they participated well in the questioning, afterwards. Students questioned about packaged water problems and methods of water conservation which were addressed generously by the speaker. There was a discussion organised by the faculties about the legal aspects of water pollution, water availability, scarcity of water and governmental policies.

Hyderabad- 500 028, India

The Campus Bird Count is a sub-event of the larger Great Backyard Bird Count. It is a coordinated effort to document the birdlife in multiple campuses across India. By “campus”, we include campuses of educational and training institutions, government institutions, research stations, corporate campuses, etc. Broadly speaking, any moderate to large sized area where people study, work or live. Campuses in India often contain surprisingly large amounts of important habitat for birds and other wildlife, even in urban areas. Documenting this wildlife is therefore important and it’s also fun and relatively easy!

A group of bird enthusiasts from our campus organized themselves in such a way that they covered all the different areas and habitats that our campus contains. The protocol is to walk around, and collect as many 15-minute ‘complete’ lists as possible. In other words, each 15 min list should contain *all* species detected in that time period which are Uploaded through eBird Mobile app.

City Nature challenge 2023

The City Nature Challenge 2023, a global competition between cities aimed at

St. Ann's College for Women
(Autonomous), Affiliated to Osmania University,
Accredited 'A+' Grade by NAAC (3rd Cycle),
College with Potential for Excellence by UGC,
ISO 9001: 2015-ISO 14001: 2015
Hyderabad- 500 028, India

documenting urban biodiversity, took place from April 28 to May 1. From India, 35 cities participated in the challenge & globally there were a total of 483 cities participating from 46 countries. It was the first time such a big number of cities had participated from India.

Hyderabad, participating in the challenge for the very first time, emerged as the top Indian city in terms of number of observations and participants count. Globally Hyderabad was ranked 12 in number of observations. Over 337 community scientists recorded 30,361 observations of 1,984 species during the four-day competition

St. Ann's Eco club volunteers 12 of them along with two Faculty members AM Sylaja and Meenakshi are among the 300 **volunteers** who participated in 🦋🐿️ **City Nature Challenge from Hyderabad** 🐞🌱 for bringing it to the **TOP rank** 🏆 in the challenge from India! and Hyderabad has grabbed the twelfth position globally!

The city has recorded over 30,000 **observations** of biodiversity!

Two of our Volunteers Ms Nabiya and Keerthi from Bsc BBC First year are among the top 20 Volunteers with maximum observations and will be awarded appreciation certificates shortly.

Rest all volunteers are in top 50
