SACReD – St. Ann's Centre for Research and Development

The role of research in an academic institution is significant for its sustainability and development, and it is imperative to have knowledge-driven growth based on innovation. Research is essential for facilitating outstanding student education and training. It helps in providing a particular texture to the academic environment of the College, which further gives a distinctive and distinguishing educational experience to the students. Scientific research helps students develop critical reasoning skills. Such skills are helpful for any field of higher education but is particularly helpful for science majors. Developing and maintaining undergraduate and post graduate research programs benefits students, faculty mentors, and the university. Incorporating a research component along with a sound academic foundation enables students to develop independent critical thinking skills along with oral and written communication skills.

With these facts in view, the institution has established a centralized interdisciplinary research lab, **SACReD**, for faculty and students which was strengthened under autonomy with the following objectives.

Objectives :

- To create awareness and opportunities in Research and Development among the students & faculty.
- To provide a platform for design thinking and sharing information.
- To provide direction to the researcherstoundertake research activities and development projects offered by various funding agencies.
- To create Research and Development atmosphere in every department.
- To promote interdisciplinary research across all the disciplines.

Infrastructure

The Research centre is 600 sq.ft, housing facilities such as:

A Library and reading room

- a) **Facilities available-** Computer facility with net connectivity, printer scanner and an LCD projector. Software package SPSS/PASW – product analysis software used for both qualitative and quantitative analysis in research.
- b) **Equipment and Instrument chamber**

c) Aseptic Zone

d) Work stations

- Two Air conditioners
- Gas connection with a set of burners
- 20KVA voltage stabilizer for electrical supply

OUTCOME OF SACReD

The following are few specific outcomes of the research activities as a result of research work done at Central Instrumentation Facility-

1. Launching of online Journal **AnnQuest** with ISSN 2323-3043 and Impact Factor – 4.35 (Cosmos)
2. **Annfolio** – a consultancy brochure through which services and expertise of faculty are made visible and accessible
3. Award for excellence in research, SARA
4. Financial support for faculty:
 - a. For paper publications – National and International.
 - b. For attending conferences, FDP.
 - c. SEED money for ARP.
 - d. Financial incentives for publications.
 - e. MRP sanctioned by UGC and other funding agencies
 - f. Interdisciplinary Projects (CPE+UGC)
 - g. Seminars /Training programs organized
