Annual Report 2018 - 19

Preface

An institution remains excellent only by constantly recognizing that it must do even better. Five years of autonomous status has firmed our apparition to remain focused towards our goal of creating globally competent young women.

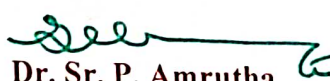

We have been at the forefront of key innovations that are now commonplace, including dynamic curriculum, value added courses, mentorship program, opportunities to explore a world beyond boundaries of college. A student-centered environment, centers for continued development, Student Quality Assurance Cell, participatory management and a faculty always in pursuit of being better than yesterday, are some of the innate quality enhancement efforts. A relentless focus on improvement is central to the College's mission to improve the lives of our students, their communities, the society and future generations through higher education. This commitment also illustrates our adaptive approach to meeting students' unique needs and breaking down the barriers that stand in the way of their pursuit of higher education.

The report captures the scope of the strides we have made, the exertion involved in these advances and specific IQAC interventions and its efforts. Our dedication to improving the student experience is exemplified by initiatives outlined herein. Our commitment to moving the needle on student success also shines through in our faculty. They bring an average of 8.7 years of teaching experience and come from nineteen different universities bringing ample diversity. The efforts of the faculty must be acknowledged who have shown such remarkable adaptability and delivered quality instruction in times of intense syllabi, new courses, and elaborate examination system.

The Report presents a comprehensive view of curricular, co-curricular and research activities of the College. There is considerable progression in academic output, result, placement of students in different organizations and success at multitude of activities where our students participated. In tune with the IQAC's practice of dedicating each year to a theme; this year's theme was "Entrepreneurship" and the report also records the efforts made by all departments, cells, clubs, and centers towards it.

We are not content to rest on these accomplishments, IQAC continues in its steadfast commitment to student success and an improved student experience, and we are confident there are even greater heights that we have yet to reach. It is our endeavor to make our College the best learning place!

Extension activities

Extension activities play a major role in fostering community engagement, social awareness, personal developments and real world education. At St. Ann's we offered various opportunities for students to take the lead and bring a change. Some of these extension activities are swatch Bharat Abhiyaan, Traffic Awareness Programmatic Ragging and harassment campaign,

international Yoga day and a pink ribbon Walk. All these activities focus on the individual student's growth along with a positive impact on the community to create better citizens for a better future.

Focus areas of the outreach programme:

- Empowering women through vocational training programs
- Quality education to the needy and underprivileged students
- Health care through awareness drives & Programs
- Leadership development.
- Environment awareness and protection

Outreach programs are another path towards community development and personal involvement of students. St. Ann's always hosts many outreach programs to educate and interact with the community outside the college. In 2018-2019, the major outreach activities conducted were the make difference campaign, Swacch Bharat Nukkad was performed by 40 NCC Cadets in the

college premises as part of 'SWACHHTA HI SEWA' Campaign launched by Ministry of Drinking water and Sanitation wash in school, installation of the sponsor club, tree –planting .survey based on cancer research at MNJ Hospital. Each of these activities helped our students become a valuable contributor in the society they live in and contribute in the best possible manner.
