## REPORT ON ORIENTATION OF INSTITUTE OF COMPANY SECRETARIES OF INDIA (ICSI)

On 6<sup>th</sup> July 2018, at 10 AM in AV room in ST. Ann's College for women, Department of Commerce organized an Orientation for the 1st years of BCOM students. All the combinations of BCOM were invited to gain knowledge about Company Secretaries. All the combinations of BCOM were invited to gain knowledge about Company Secretaries.

The Orientation started off with a prayer and reading as a tradition and in order to welcome our Chief Guests .

The college invited two speakers for the event.

The first speaker of the event was CS.S.KAVITHA RANI; she is the Chairperson of Institute of Company Secretaries of India.

She was presented with a bouquet to welcome her to our college and was asked to share her thoughts on this course.

MS.Kavitha had started her lecture with the advantages of opting the CS (Company Secretary) course and had told many stories to keep the crowd entertained and to connect with the students.

The students seemed very intrigued and were curious to know more as there was a lot of interaction between the students and MS.Kavitha.She explained the number of Company Secretaries available in India and encouraged the students to opt for this course as there is a demand.

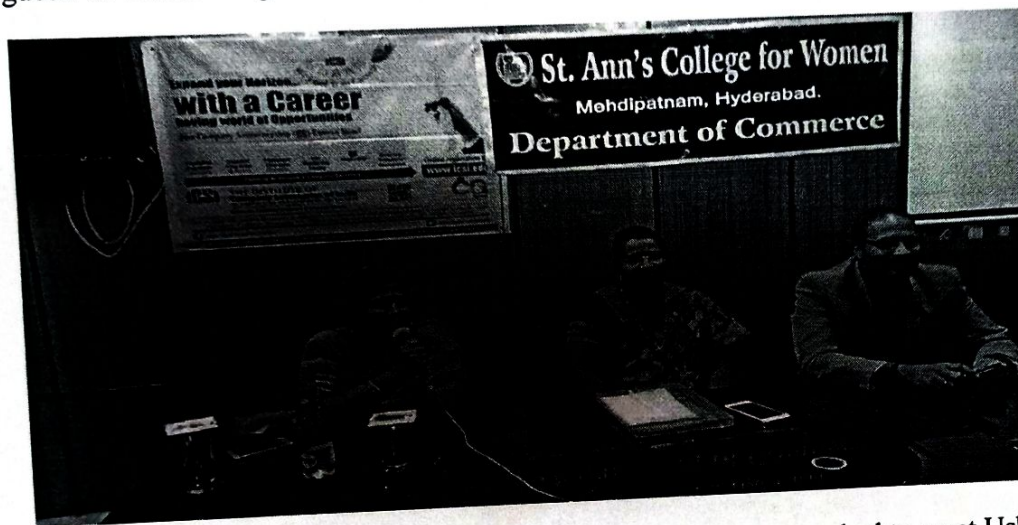

Our second speaker for the day was MR.MAHADEV TIRAMUGIRI.He is a fellow member of Institute of Company Secretaries of India and is a Company Secretary in practice.

Mr.Tirumugari had started his lecture with a cheerful note and was kind enough to prepare a power point presentation (PPT) for our students to make the lecture more interesting. Sir's PPT consisted of various pictures and questions which only added to the enthusiasm of the students listening. Many students had interacted with him and answered his questions.

He spoke about the advantages and the different qualities required for a student to pursue this course. He also explained the required duration and the fee to pursue this which was very informative for the students.

Even after our both speakers were completed speaking, the students asked questions to our guests to which our guests answered very politely.

The interested students who wanted to join for this course were asked to meet Usha ma'am of Department of Commerce for further guidance on this subject.

There was active participation of students throughout the Orientation which was very encouraging and increased the confidence of the teachers.

TOPIC: MOTIVATION

SPEAKER: CHITRA THAPA, FOUNDER OF CTMM

Department of Commerce organized "Motivation" programme for B.Com I year students with a motive to eliminate stage fear from students. The programme started at 10:30am by Mr. Chitra Thapa, founder of CTMM with a soothing session wherein by playing guitar he encouraged students to come up on the stage and sing along followed by guidelines on 'how to make use of opportunity' in career lines. Towards the end of session many students spoke on their own which indicates the programme reached its motive of making the students confident

## REPORT ON CAREER COUNSELING

A career counseling session was conducted for the students of both NCZ and NCB final year by Miss Kiran mam on 16<sup>th</sup> march 2018, to dispel the doubts regarding the further studies and career options.

This was an interactive session with students on the important aspects to be considered when making choice of stream and thereafter career.

In this session it was explained to the students about the NIN entrance exam and how to proceed for the NIN entrance exam. The exam is conducted for 100 marks and the books suggested for the preparation of the exam are like Nutritional Biochemistry by U.Satyanaryana, Clinical Nutrition by Srilakshmi, Human physiology human encyclopedia should be referred, Food Microbiology and then the instructions were given to the students about the exam and further procedure for the admission and counseling process.

The details for the OUCET entrance exam was also given and the paper explanation was given regarding that .The session aimed at making students aware of the multiple career options available .She also shared information regarding leading colleges and various courses available in Hyderabad.She also shared her personal experience.

The question and answer session helped students to clarify several issues regarding career. This session was informative and enriching for students. We would like to thank Kiran mam for giving her precious time and also Meena mam for arranging a 1 hour session regarding career counseling for the students.

## CAREER COUSSELLING – 2018-2019

### Objectives/Functions:

- **Awareness** – Creating awareness about different career opportunities available to the students, helping students and professionals understand how career counselling can help them proceed in their career positively.
- **Identification** – Identification of strengths and weaknesses of a student in order to guide her about suitable career fields, the skills that are required to be developed, new opportunities etc.
- **Information** – Providing information regarding career fields, admission process, future scope, emerging trends in specific careers, amount of hard work required, opportunities.
- **Motivation** – Motivating a student to achieve her career goals with a proper direction Career. The importance of career counseling cell lies in the prevalent career unawareness. In the majority of cases, students select their career based on what their peers are selecting or what their parents think is right for them. This often leads to dissatisfaction in career and thus jobs for the students. This has also been quoted as one of the biggest reasons behind mental anxiety, depression among the students. Observing the severity of the situation, it is highly important to develop a concrete platform for the students where they can get their career queries solved. In fact, increasing competitiveness demands greater efforts towards the right career guidance to the students.  
We do Career Counselling by organizing Seminars, Workshops, Face to Face Counselling, Counselling over chat, etc.

Career Counseling Cell is conducted activities which includes seminars, workshops and guest lectures on various topics.

## SEMINAR REPORT ON IBM WATSON

On 25<sup>th</sup> September 2018 a seminar on IBM Watson was conducted. Mr. Shoab from PACE Academy addressed the students of MBA 1<sup>st</sup> year. He started his seminar on the topic data science or data analytics. Data analytics is the process of examining data sets in order to draw conclusions about the information they contain, increasingly with the aid of specialized systems and software. He gave examples such as heat map used in e-commerce platforms to know which categories on the website the customers are interested in. This can draw conclusions on customers buying behavior or interest & can be helpful in targeted marketing campaigns. He also gave example of cricket map to help the bowler to improve his bowling tactics. Another good example was given about the best camera phone. From iPhone X, Samsung Galaxy S9 and Google pixel, both the iPhone X and Samsung Galaxy S9 have dual lens camera to enhance their images whereas the Google Pixel has a single lens camera and takes best images than the other two. It does so because Google collects and analyzes more data of people based on the type of images people capture etc. than the other two brands and enhances its camera images using software.

Business analytics focuses on developing new insights and understanding of business performance based on data and statistical methods. It is divided into two types: structured data and unstructured data.

Structured data depends upon high degree of organization. Eg: Spreadsheets. Unstructured data depends on low level of organization. Eg: MS word. Next topic which was addressed was stages in analytics. The stages are as follows:

**Descriptive:** This type of analytics typically answers the question "*What happened?*" This is mainly used to describe and characterize past events. Managers produce summary statements of the data. This can be explained with the help of a

general example, when a person falls down and hurts his/her knee, he goes to a doctor. The doctor asks what happened.

**Diagnostic:** Managers use diagnostic analytics to answer the question "*Why?*" or "*Why did that happen?*" They focus on a known outcome and try to determine the factors and events that contributed to that event. Consider the same example after knowing what happened the doctor sends the person for diagnosis, x-ray to know why it is hurting.

**Predictive:** "*What is likely to happen?*" This type of analytics is about getting real insights to predict what will happen if you make a change or keep things the way they are. It's about using data from your database or from social media and detecting trends and patterns to help predict future outcomes. Example after the diagnosis the doctor will predict if plaster is needed or not.

**Prescriptive:** Prescriptive analytics is based on "*What to do?*" It's all about understanding what to do to maximize good outcomes and prevent bad ones from happening. Example the doctor will give prescription to reduce the pain.

IBM Watson is a platform where data is collected and analyzed accordingly. Watson is an IBM supercomputer that combines artificial intelligence (AI) and sophisticated analytical software for optimal performance as a "question answering" machine. Powered by the latest innovations in machine learning, Watson lets you learn more with less data. You can integrate AI into your most important business processes, informed by IBM's rich industry expertise.
