Event: Technocrats IT Exhibition-2018

Date:29-08-2018

Department of MCA organized an IT Exhibition at college on 29, August,2018 .It was an innovative and experimental day for all MCA faculty and students.

The exhibition was inaugurated and released Department magazine-"Reflexion" by Ms.Meena pathangy Dean, Ms.Radhai, CEO, Ms.D.Sarala ICT-Coordinator and the Chief Guest Ms.Swarna Padma Latha.

The budding scientists of our college presented many creative ideas as exhibits.The models were assessed by the judges.

The chief guest appreciated the novel ideas of the participants. The exhibition provided a platform to scientific experimentation and innovation to the future scientists. The enthusiasm and skill clubbed with in depth knowledge was commendable. With an endeavour to promote scientific attitude among students the exhibition was one of its kind.

DEPARTMENT OF TELUGU

TELUGU BHASHA DINOTSAVAM (30-08-2018)

29th August is marked as Telugu Language Day in the Indian state of Telangana to commemorate the birth anniversary of a prominent Telugu writer, Gidugu Venkata Ramamurthy born in 1863, and was one of the popular linguists during British rule.

Significance of Telugu Language Day

Ramamurthy was one of the popular linguists during British rule that advocated the use of language and stood firmly against the use of scholar language. Spoken Telugu is different from written Telugu due to which learning written Telugu was not helpful during understanding or communicating. But however, with the help of Ramamoorthy, spoken Telugu came to be standardised and was accepted by scholars. That is the reason, Telugu is used in schools and educational institutions as the medium of Instruction, examination, and writing.

Telugu bhasha dinotsavam

Department of Telugu, has organised classical singing , Kuchipudi dance, Telugu Folk dance, skit on famous poets Reciting poetry. The chief guest for the event was Sri **Dr. Venigalla Rambabu.garu**. He is a Famous Telugu Lyricist, Dialogue Writer .

The accomplishments:

- Received Nandhi award for best Lyricist award in 2000.
- Works as dubbing script writer and contributing lyrics for Tamil, kannada, malayalam etc. During the event

Drone Workshop

Name of the Department	Physics & Electronics
Title of the event	Drone Workshop
Date	9 th December 2019
Venue	An Offline event
Target group	BSc I, II, III MPCs and MECs
No of Student/ No. of Faculty participants	

Objective:

- To inspire students towards the high performing technologies.
- To ignite the young minds to enjoy the success of technologies judiciously.

Summary and Outcome:

The Department of Physics & Electronics has organized a National Workshop on “ Working of Drones & Applications”on 9th December, in collaboration with Department of Space. A group of students performed a classical dance to invoke the trimurthis - **Durga, Lakshmi, Saraswathi** . The three goddess were personified as three components in tune with the Vision of the college i.e **Academic Excellence, Skill Enhancement and Women Empowerment** . The workshop was inaugurated by the Chief Guest Sri Sri Raghu Venkat Raman Director, Advanced Data Processing Research Institute, ADRIN, Dept.of Space and principal Dr.Sr.P.Amrutha . The significance of the workshop was presented by Dr.D.Sarala, Head of the Department. Later a Souvenir was released by the Guests and the workshop was declared open digitally.

Mehdipatnam, Hyderabad.

The keynote address was delivered by the Chief Guest on "**Emerging Technologies of Unmanned Aerial Vehicle**" (an aircraft piloted by remote control or onboard computers). The importance of study of Physics at U.G level and subsequent progression to higher studies was explained. The role of fundamental aspects of Torque, Payload, Direction of the drone movement and Gyroscopic action in the working of Drones was emphasised.

Four technical sessions on **Aerial Survey Applications , Tank Capacity Estimation** and one Demonstration of working , programming and controlling of drones were deliberated by the Scientists.

"Do it Yourself Drone" was demonstrated by Dr.Pramod, Scientist SG of ADRIN. How to remotely control the operation was illustrated. The physical parameters needed to consider like the Altitude, the endurance, application intended in the designing of a Drone were presented. The fields/areas in which the drones can be operated were shown with the help of a video presentation.

Importance of water resources , Tank irrigation in India , Need for capacity estimation , Remote sensing platforms , Drone survey , Tank capacity estimation was presented by Dr.Abdul Hakeem ,Scientist SG Head, Water Resources Informatics Division National Remote Sensing Centre, ISRO.

Regulations and permissions imposed by the Director General of Civil Aviation required to fly the Drones, the registration of drones with a unique number were presented by Mr.Varun , Scientist SC , National Remote Sensing Centre, ISRO.

The software required, programming concepts and the projects carried out by a team of Scientists with prototype model was presented by Dr.Raghavendra, Scientist SC of ADRIN.

The students were inspired by all the sessions and career opportunities in reputed R&D organizations were highlighted. At the end of all the sessions, an online Quiz competition was organized on all the topics covered in all these sessions. Dr. Chandra Sekhar, Managing Director ,Technique Design Group was the Chief Guest for the Valedictory session where in the winners were awarded prizes. The workshop was attended by more than 300 students and 25 faculty members.

The students would have learnt a few programming tools to operate drones and appreciate its working.

Voyage from Apollo-11 to Chandrayaan -II

Chandrayaan -II

Date: 20th July 2019

Objective: Celebrating 50 years of Apollo 11 Voyage.

Summary and Outcome:

The Department of Physics & Electronics has organized an Intercollegiate Commemorative program to celebrate 50 years of the man landing on the moon on 20th July, 2019. A guest lecture on “ Voyage from Apollo 11 to Chandrayaan -2 “ by Dr.S.M.Ahmed, Principal Scientific Officer, Central Instrumentation Laboratory, University of Hyderabad has enthralled the audience.

In the capacity of core science team member of Chandrayaan-I project, the Resource person had firsthand experience in developing an indigenous science payload called CHACE as a part of Moon Impact Probe (MIP) mission. The CHACE would travel a down-ward journey after separation from Chandrayaan-I to have an impact near the south pole of the Moon. The present talk covers a collective human aspiration to reach out to Moon. The rich experience of the speaker has motivated the young students to seek career opportunities in Space Research

A Model Building Competition and Exhibition

Report:

Department of MCA Organized *Technocrats Elite 2021* - A model building competition and Exhibition on 30th April 2021 at 11:00AM. This event is one of the best practices of the Department and been conducting consecutively since 2 years. Students from different colleges, institutions and schools has attended the IT Exhibition which is conducted online.

The IT exhibition gives a platform to many enthusiastic students who have a desire to develop, build and experiment the technological concepts through experiential learning, thus pointing to necessary research attention, in their own domain. A fair number of participants registered (10 teams) to attend and Exhibit the different models of technology. The outcome is truly a remarkable achievement. Students are being judged and asked to explain further to compete with each other and won first, second and third prizes along with consolation prizes. It been a great success that everyone has given their best in projecting the exhibits and competed with each other.

Objectives of the IT Exhibition:

Event : Home Decors Exhibition of students projects

Date: 19-12-2022

Name of the Department	Physics & Electronics
Title of the event	Home Decors Exhibition of students projects
Date	19th December, 2022.
Venue	St. Ann's college for Women
Target group	Physics & Electronics students
No of Student/ No. of Faculty participants	II year Physics & Electronics students- 100

Objectives:

- To motivate the students on creating projects using LED lights.
- To bring awareness on the use of low power lights during festivals - Diwali and Christmas.

Summary and Outcome

The students of II year Physics and Electronics have prepared models by using low power Light Emitting diodes. The projects that were showcased include: Christmas decoration lights, illuminating water falls, clap switches, automatic switching off the lights when not in use. The electronic waste materials like old CDs, cardboard and paper decoration lights were used to construct the models. The exhibits were displayed in the college Quadrangle during lunch time and Sr. principal inaugurated the stalls. Dean Academics Dr. Smita Asthana, Controller of Examinations Dr. S. Radhai, Deans Student Affairs- Dr. Nirmal Xavier and Dr. Mahiha have appreciated the projects.

STUDENT CENTRIC ACTIVITIES:

The department of Arabic organises inter collegiate competitions every year and various colleges take part. There were several colleges that participated in the competitions enthusiastically, certificates and trophies were given to the winners and participants.

In 2021, organised an online competition of Bait bazi for sher shayari where students can explore their talent and put it in front of judges. It was a very successful event of Arabic department. Other competitions include painting competition and extension lecture.

These above competitions benefited the students a lot in knowledge and gave

PRINCIPAL
ST. ANN'S COLLEGE FOR WOMEN
MEHDIPATNAM, HYDERABAD-28.

confidence to showcase their talents. Through Tibbe Nabawi competition students came to know about various natural home remedies for different kind of health issues and through calligraphy people got awareness about the art of Arabic language how one can improvise it and learned the value of it. We Amrozia Club will always strive to bring awareness among the young Muslimah and a chance to come out with their talents.
