Course Code:	Course Title		Credits:2	Hours:24
BBM 506	Summer Internship Report			
Course Aim:	Aim of summer internship is to give an opportunity to the BBM students to have practical exposure related to the job they prefer to do after their graduation. Summer internship is to acquire practical knowledge by working in any organization. Through working for one to two months in any organization of their choice, students should learn how to do routine work related to the functional area of their interest.			
Learning Outcome	After summer learning internship students should be able to: 1. Understand the product mix and strategies of the organization, structure of organization, reporting systems and general administration of the organization. 2. Understand the organizational dynamics in terms of organizational behaviour, culture, competition, future strategies and change initiatives of the organization. 3. Understand how to do routine work related to the job they prefer to do after BBM.			
Approach to decide Summer Internship:	Students should take covering letter/s, addressed to the organization/professional, before the completion of fourth semester and approach the organizations. They can use their own contacts or seek assistance from the faculty and head of the BBM department of the college to pursue the process of getting the summer internship. College is also expected to constantly approach companies and professionals and try to explore opportunities of providing summer internship to their BBM students. Students are also expected to put their serious efforts to get the summer internship because there is huge competition for getting summer internships and organizations are also expressing their inability to provide summer internship to the large number of students pursuing BBM. Students may work in any organization like banks, hospitals, hotels, insurance companies, charitable trusts, NGOs, Government departments etc., or work with any professional (like chartered accountants, doctor, lawyers, real estate, temples/religious institutions etc.), small or big or any entrepreneur, manager of any business organization and understand how they are doing business. They can visit the shops, petrol bunks, dealers, distributors, retailers, companies or their branch offices in their nearby cities, towns and villages to understand their business model.			
Report:	A brief report of explaining their understanding and analysis of the organization they work should be presented. The students need not present information available in the websites. Students should give reference to the web link with a brief note on what the web site contains. Presentation of their experiences through working and observation during the summer internship will enable them to enhance their creativity towards solutions for the issues and challenges of the business organizations or professionals with whom they are associated.

Minutes of the Board of Studies meeting held on 24-02-2018

1. Syllabi, model papers for semesters III and IV to be effective from 2018-19 were presented, approved and ratified after discussion.
2. It was decided that the Evaluation pattern will continue as per previously approved model.
3. The syllabus and the other details of the two-credit career oriented courses *Environment management* and *Dyes and Textiles* offered by the department in Semester III and IV were approved.
4. The approved interdisciplinary course *Research methodology* in semester V and VI will be continued..
5. **Summer internship** and **project work** will continue as planned under advanced learners programme.
6. The question paper pattern for all the three years, both CIA and End Semester exams for Semester I to VI is discussed and approved.
7. The panel of examiners was approved after the addition of more members.

Zoology

Report on Autonomy Semester - I, III & V

- The Autonomy was introduced in our college in the year 2015-16 with NCZ, MCZ, GCZ & BZC Courses in Zoology.
- The Department is happy to announce that the Students of first autonomous batch has performed well in the semesters which they have finished.
- Continuous internal assessment helped the students to score good marks and improved the regularity of Students.
- CIA III is in the form of **Projects**/Assignments covering the topics from the syllabus.
- Students found the subject very interesting and also appreciated the use of audio visual aids during the lectures.
- The Theory and Practical syllabus was very vast for Sem I & Sem III but conducted classes smoothly and within the stipulated time.

Offered

1. Course title

2. Department

3. Objective

solutions and HR consulting for the healthcare revenue cycle and electronic medical documentation management sector. This medical practice management solutions help healthcare providers in India achieve global standards in patient data management and back office optimization. In addition to healthcare related services it also provide human resources training and consulting for the US healthcare industry. Training and consulting for medical coding in ICD-10 is one major module in this course.

4. Expected Outcome

- Certificate of Completion is issued to all students, deserving students are given internships followed by placement assistance & setting up job interviews with recruiting companies.

5. Syllabus Theory

Overview of ICD-10(Detailed Syllabus Enclosed)

- Anatomy, Terminology & Pathophysiology,

6. Syllabus – **Internship/practicals/Training /project** -Enclosed

7. Evaluation pattern

- Tests at the end of completion of course

8. Grades

- Credits based on Basic Certification

9. Resource Person

- Mr.B.Srikant ,Managing Director & Managing Partner,Med Converge

Week 13: Overall course review/revision

Week 14 & 15: **Mini Project**

**Prescribed Reading:**

- The Quick Python Book, 2nd edition, Darly K. Harms, Kenneth McDonald, and Naomi Ceder. Manning Publications, ISBN 9781935182207
- Learn Python the Hard Way, Zed Shaw.
- Gutttag, John. *Introduction to Computation and Programming Using Python*. Spring 2013 edition. MIT Press, 2013. ISBN: 9780262519632.

**Supplemental Resources (Free Online Resources)**

Dive into Python, by Mark Pilgrim (<http://www.diveintopython.net/>)

How to Think Like A Computer Programmer (Python)

(<http://www.greenteapress.com/thinkpython/thinkCSpy/html/index.html>)

A BYTE of Python (<http://python.swaroopch.com/>)

Python Programming ([https://en.wikibooks.org/wiki/Python\\_Programming](https://en.wikibooks.org/wiki/Python_Programming))

The Python3 Tutorial (<https://docs.python.org/3/tutorial/index.html>)

**Evaluation Pattern:**

SEM I: Internal: 20 + External: 30 – 50

SEM II: Internal: 20 + Project 30 – 50

Overall: 100 marks (Final evaluation – grades A, B, C, D to be given)

**Internal exam Pattern:**

Duration: 1 hr

Max Marks: 20

Five questions to be given. Answer any four.  $4 \times 5 = 20$  marks.

**Final Project:**

Simple programming projects in Python:

Sample programs

1. Create a python project to simulate a dice.
2. Python project to create a game for 'guess the right word'
3. Program to guess the right number
4. Simulated game for treasure hunt.

Minutes:

B.Sc. MSCs  
Statistics

1. Syllabus for the papers STA505, STA515, STA607 & STA617 (SEM V & SEM VI) were discussed and changes suggested.
2. Changed pattern of question papers for theory and practical exams for all the papers was presented and accepted to implement from the academic year 2018-19 onwards.
3. Syllabus for the Inter Disciplinary Course (IDC) - Basic Statistics and Data Analysis was discussed and accepted.
4. Panel of examiners was presented to the board and accepted.
5. Suggested an elective designed in correspondence with industry in Semester V and a **full time project** in Semester VI in place of elective paper for the next coming year 2019 onwards.
6. Online courses evaluation to be done by experts in the institution and credits to be transferred.
