Health Camp at Toolekalan Village, Ibrahimpatnam

10.Vocational Training Program for Women

Date:13th April 2023

No.of Student Participants: 6

Objective: Vocational training in cloth bag making

Rotaract Club of St.Ann's College in collaboration with with Rotary Club of Hyderabad Central organized one day vocational training in cloth bag making to the women at Tulekalan Village (Ibrahimpatnam) on 13th April 2023. Considering the serious issues of plastic bags, this workshop was aimed at creating awareness among women regarding the ill effects of using plastic bags and in-turn training them to make bags using recyclable material like cloth. The main goal was to create opportunities and scope for the development of the skill of the women to gain access to decent employment /self employment. Around 60 women participated and all of them were inquisitive and eager to learn to stitch those bags and completed their task with utmost perfection and made the camp a success.

Kit Distribution for Cloth Bag Making

Vocational Training @ Toolekalan Village

11. Health & Hygiene Promotion Session

Date:20th April 2023

REPORTS OF THE ACTIVITIES

1.Tree Plantation activity

Date: 12th Dec, 2022

No. of Student Participants: 5

Objective: Value the environment and increase the green cover

Smt. RadhikaJaiswal, Hon'ble Senior Civil Judge-cum-Secretary, Metropolitan Legal Services Authority, Nampally Criminal Court, Hyderabad, TS visited St. Ann's College and interact with students and inspire learners through a tree plantation programme.

Tree Plantation

2. Rice Donation Drive

Dates: 12th to 17th Dec, 2022

No. of Student Participants:45

Objective : Help people in need and those in position of necessity

NGO Management students have organized Rice donation drive in collaboration with Youth for Seva NGO. Students have collected rice from the college students and faculty and donated to people in position of necessity.

Rice Donation Drive Flyer

CWS volunteers in action in collective drive

3. Awareness Session on Gender Based Violence

Date: 30th December 2022

No. of Student Participants: 10

Objective: To prevent and respond to gender based violence

Ngo Management students have taken an online session to St. Albert School, Kishanbagh Hyderabad on Gender Based Violence. The objective is to improve the knowledge and skills on GBV. The programme aims to give awareness to fight, prevent and respond to gender-based violence. The demonstration conducted by NGO management students gave a clear picture about the safe circle and it was truly gratifying to see children creating their own safe circle by pasting the pictures of their parents and siblings. This practical presentation helped the school students to recognize, safeguard and protect themselves against such dangers from an early age.

4. Say no to Plastic Awareness in Schools

Date: 9th Feb, 2023

No. of Student Participants: 25

Objective: Save environment by use of eco friendly material

Seven groups of NGO Management students have taken sessions to seven Govt schools about the banned plastic and informed on the types of plastic that should not be used and encouraged them to use eco-friendly carry bags. They discussed about the plastic pollution and its effect on environment and also discussed how it impacts on human health. Also discussed about how to reuse & recycle the plastic and use as waste to wealth in various ways. NGO Management Students educated the school students about the hazard of plastic use.

Say No to Plastic Awareness @ Govt Schools, Masab tank ,Hyderabad

5.Awareness Sessions on Pollution Control

Date: 9th Feb, 2023

No. of Student Participants: 30

Objective: Limit the damage done to the environment by following good practices

Centre for Women's Studies organized sessions to government school children on Pollution Control. The objective of the session was to bring awareness among the students about the Pollution Control and Environmental Science. The students of NGO Management have spoken about the importance of environmental conservation and the ways that can be imparted in automobiles to reduce pollution and conserve the surrounding.

Pollution control sessions@ government schools

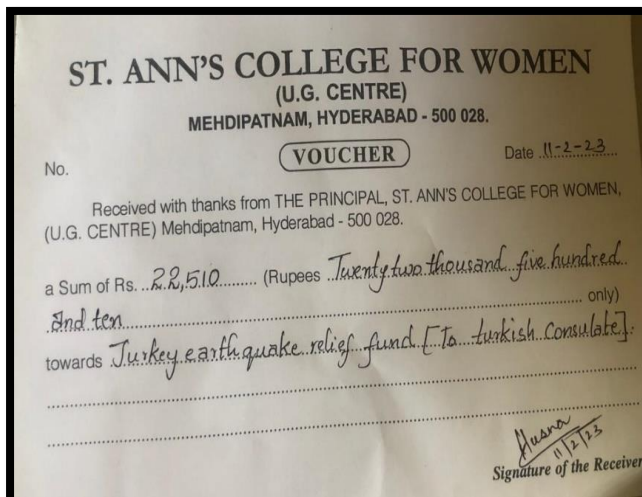

6. Donation Drive to Turkey Earthquake Relief

Dates: 10th and 11th Feb, 2023

No. of Student Participants: 45

Objective: Disaster Management Efforts

NGO Management students have organized donation drive. Students have collected cloth, medicine, money 22510.00 from the college students and faculty and donated to Turkish Consulate in Hyderabad.

Voucher for Relief Fund collected by Students

CWS Volunteers @ Donation Drive

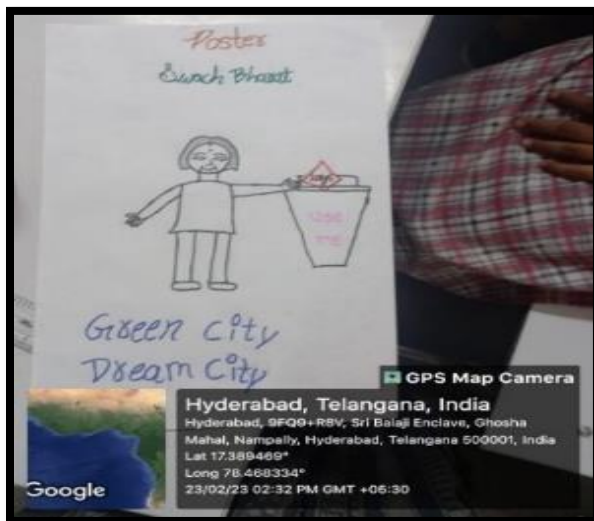

7.Swachh Bharat (Clean India campaign) Orientation in Schools

Date: 23th Feb, 2023

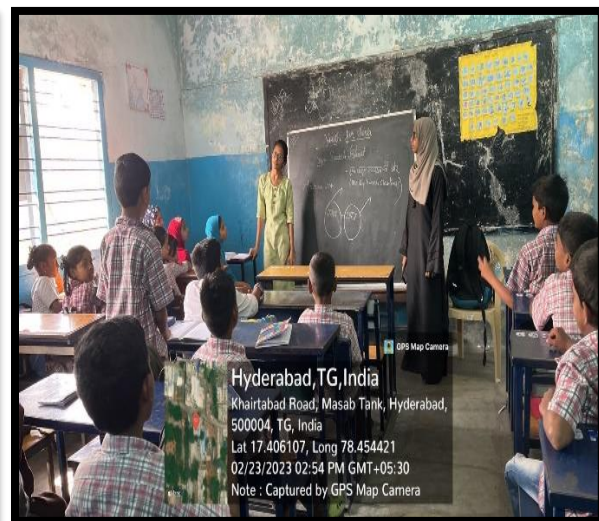

No.of StudentParticipants: 45

Objective: Improving quality of life through cleanliness

Seven groups of NGO Management students have taken sessions to seven schools about clean city and, how can we contribute to make your city clean on your side, what measures should be taken by government to keep the country clean. NGO Management students have organized poster competition on Swachh Bharat.

Posters prepared by School Students

REPORT OF ACTIVITIES

1. Sale of Eco-friendly Ganesha

Date: 30th August,2022

Number of Student Participants:10

Objective:Eco friendly initiative to save and protect environment

Dharini Eco club in Collaboration with Green Waves Organisation has put up a stall for sale of Eco friendly Clay Ganesha idols in our college campus to create awareness on Eco friendly idols. Enlightened the students and faculty on how bucket immersion of idols can protect our lakes from pollution there by avoiding the use of chemically made POP idols. The event was successful as it has created an impact of environmental consciousness among the people. The students of Environment Education course volunteered in the sale of the idols.

Sale of Eco-friendly Ganesh

2.Paper Bag Making

Date: 3rd November,2022

Number of Student Participants:50

Objective:Eco friendly Alternative to Polythene bags and prevent plastic pollution

Eco club volunteers were trained in making Paper bags and awareness was created to use eco friendly bags as an alternative to beat plastic pollution. Each participant prepared 5 bags each using different kinds of paper like newspaper, Magazines and calendar's etc.

Making of paper bags

Paper bags display by students

3. Sale of Biodegradable Sanitary napkins

Date: 17th November, 2022

Number Of Student Participants: 15

Objective: Eco friendly initiative to prevent pollution

Menstrual Health and Hygiene is essential to the well-being and empowerment of women and adolescent girls. It's a fact that plastics have invaded our lives. In order to overcome the ill effects of chemical based Sanitary pads, APNA Green Products organization has come up with an eco friendly initiative of Bio degradable sanitary pads which are made of Corn, banana and bamboo fibre which are skin friendly and chemical free. They have put up a stall for the sale of Bio degradable sanitary pads in the college premises. The sale created a big impact on many of the faculty and students as they shifted from regular pads to biodegradable pads. The students of Environment education volunteered for the sale of the products.

Sale of Biodegradable Sanitary napkins

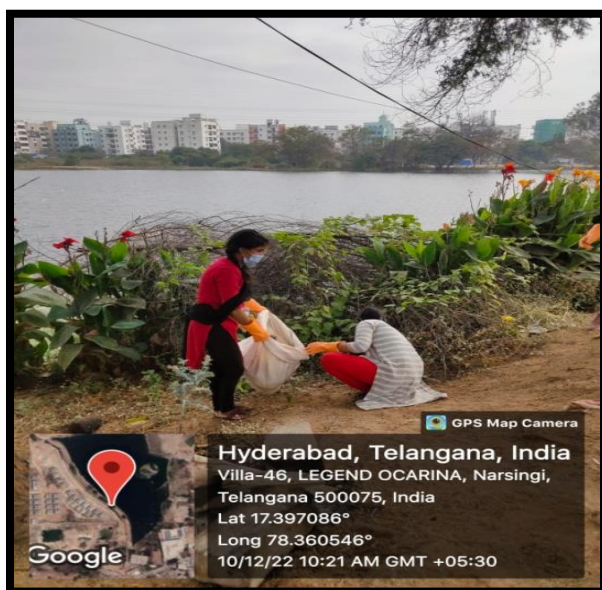

4.Lake Cleaning Drive

Date:10th December,2022

Number of Student Participants:10

Objective:Conservation of water bodies

As a part of Outreach activity, Dharani ECO Club, in collaboration with Druvansh NGO organised Lake cleaning activity at Mushki Cheruvu, Nanakramguda, Hyderabad by Eco club students.

Lake cleaning drive

5. Old cloth Collection Drive

Date: 9th March, 2023

Number of Student Participants:50

Objective: Awareness on Upcycling & Recycling of waste generated

To create awareness on Upcycling of Waste among people Cloth Collection drive was organized by Dharani ECO club . The Student volunteers took initiative and collected around 200kg old clothes which were Handed over to **Green waves Environmental solutions organization.**

Old cloth Collective Drive

6.Campus Bird Count 2023

Date: 17th Feb ,2023 to Feb 20th Feb ,2023

No. of Student Participants:10

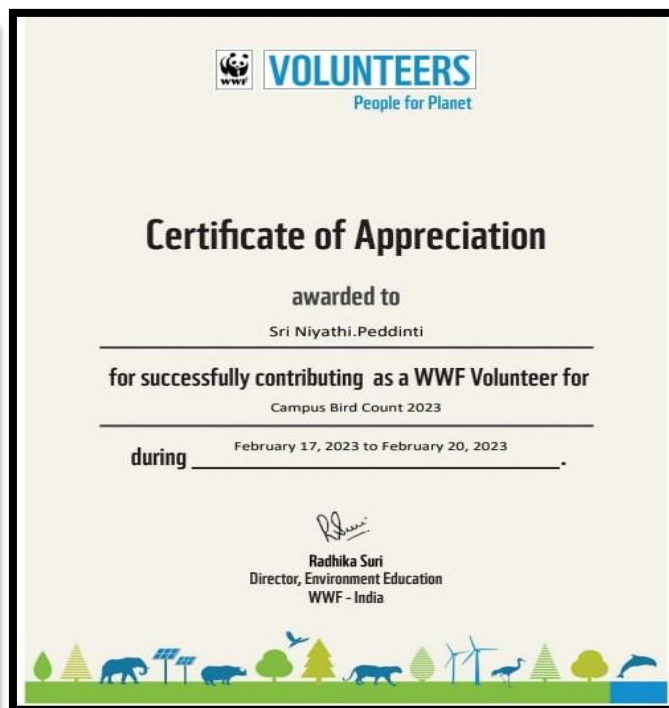

Objective: Awareness on biodiversity in a particular habitat

Eco club in collaboration with WWF ,India took part in The Campus Bird Count is a sub-event of the larger Great Backyard Bird Count. It is a coordinated effort to document the birdlife in multiple campuses across India. By “campus”, we include campuses of educational and training institutions, government institutions, research stations, corporate campuses, etc.

A group of bird enthusiasts from our campus organized themselves in such a way that they **covered all the different areas and habitats that our campus contains**. The protocol is to **walk around**, and collect as many 15-minute ‘**complete**’ lists as possible. In other words, each 15 min list should contain *all* species detected in that time period which are **Uploaded through eBird Mobile app.by WWF** and Eco club volunteers ten of them participated in this International event held globally .All the participants were awarded Certificate of Appreciation for their contributions during the event.

LIST OF SQAC ACTIVITIES

2022-23

S.No	Name of the Activity
1	Book Donation Drive
2	Honoring the Auxiliary Staff on eve of International Women's Day
3	RakshaBandhan Celebrations
4	Joy in Giving

REPORT OF THE ACTIVITIES

1.Book Donation Drive

Date: 14 th February 2023

No of Student Participants :25

Objective:Providing quality education for students belonging to underprivileged communities

Every year on February 14th, International Book Giving Day strives to reach one goal. This day is devoted to instilling a lifelong love of reading, especially in children, and providing books for children in need. The exhibit had a wide array of books ranging from novels to encyclopaedias. The pool of books was enough to gather the students and Teacher's attention towards them. The prizes being student friendly considering it was for a good cause. Many of them had the opportunity to donate their pre-read books in the hopes for it getting a new home and a more loving owner and reader.

2. Raksha Bandhan Celebrations

Date:11th August, 2022

No. of Student Participants:7

Objective: Celebration of togetherness as a united family

The SQAC team visited a Government Primary School on the occasion of RakshaBandhan and tied Rakhis to the children in the school.. 7 members from SQAC visited the school at 2 PM and tied rakhis and distributed chocolates to around 60 students.. It took around one hour to tie the rakhis and visit the school. SQAC team spoke and interacted with the children and made them aware of the importance of RakshaBandhan and bonds of brotherhood. All the children were very excited and happy and the staff was also pleased to have the team over. Overall it was a very successful and heart-warming event.

3.Honoring the auxiliary staff on the occasion of International Women’s Day.

Date: 9 th- 10 th March, 2023

No. of Student Participants:20

Objective: Recognizing the Auxiliary Women Staff

SQAC in collaboration with CWC, conducted an event filled with rejoice and enjoyment for the auxiliary staff who are also a crucial part of the staff. They were honoured and this occasion was chosen to bring a big ear-to-ear smile and rejuvenate from the work-routine

4.JoyIn Giving

DATE: 15th July 2023

No. of Student Participants:20

Objective: Donation program

SQAC team donated Aqua Fresh 50 PLPH RO Purifier - 20,000/- ,100 Litres Storage Unit - 1000/- & Blue Star Water Dispenser - 8000/- The event was initiated by the SQAC President 2022- 2023 K.S.Sriya to help the Disabled children in St. Ann’s Manovikas Kendra, Medchal to bring joy to the faces of the little kids. 2022-2023 SQAC Batch Donated the above requirements to the school to provide them with safe and pure drinking water.

Sqac team with children of St. Ann’s Manovikas Kendra, Medchal, Hyd

Students of MSc I year carried out a **diabetes awareness program at residential area in Tolichowki on 30/11/22**

Brief report:

MSC 1st and 2nd year students conducted a comprehensive awareness program on diabetes at various locations, aimed at educating communities about this prevalent health condition. This report provides a brief overview of the program's activities and impact.

Program Activities: The students organized informative lectures and interactive session at community centres, schools, and healthcare facilities. These sessions covered topics such as the causes, symptoms, prevention, and management of diabetes. Health camps were set up to provide free blood sugar screenings and health check-ups to the participants. This practical approach helped identify undiagnosed cases and raised awareness about the importance of regular health monitoring. Nutritionists and dieticians from the student team offered dietary guidance and meal planning tips for individuals with diabetes. This aspect of the program emphasized the significance of a balanced diet in diabetes management. Informative pamphlets, brochures, and posters were distributed to the attendees, enabling them to access valuable information even after the program's conclusion.

The program significantly increased awareness about diabetes in the communities where it was conducted. Many participants reported gaining a better understanding of the condition and its risk factors. Through the health camps, several previously undiagnosed cases of diabetes were identified, enabling individuals to seek medical attention and begin appropriate management. Participants expressed their intent to make healthier lifestyle choices, including diet and exercise modifications, as a result of the program's guidance. The program fostered a sense of community engagement and empowerment, as individuals were encouraged to take charge of their health and support one another in managing diabetes.

The awareness program on diabetes conducted by MSC 1st and 2nd year students was a commendable effort that contributed significantly to spreading knowledge about diabetes and promoting healthier lifestyles. The impact of the program in terms of increased awareness, early detection, and community engagement underscores its success in addressing this critical health issue.

Activity No. 3: Nutrition Education program – Millet Awareness

Dates: 13th March 2023

Mrs. Hannah Jessie faculty, along with 15 students of B.Sc NCB & NCZ went to GMR foundation as a part of NEP Program and International year of millets on 13.3.2023 and also MOU has been renewed with GMR.

A millets awareness program was conducted at GMR Varalakshmi Foundation by students of NCZ and NCB. The campaign aimed to promote the nutritional and environmental benefits of millets. Students organized interactive sessions, explained different recipes with millets, and distributed informative pamphlets to raise awareness about the importance of incorporating millets into our diets. The event received positive feedback from attendees and successfully highlighted the significance of millets in sustainable and healthy living. This initiative contributed to spreading awareness about millets' potential in addressing food security and health challenges.

Activity No. 4 Importance of Nutrition, Hygiene and healthy eating in collaboration with health centre

Dates: 13th September 2022

Venue: Government School, Manikonda

Organizing Committee:

- 4 students from B.Sc Nutrition (NCZ) Final Year
- 3 students from the Commerce Department
- Health centre St. Ann's college

Glimpses of the event:

Session on Healthy Eating by Nutrition students at Manikonda Government School

On September 13, 2022, an outreach program was conducted at the Government School in Manikonda, emphasizing the significance of Nutrition, Hygiene, and Healthy Eating Practices. The event was organized by a group of 4 BSc NCZ final year students and 3 students from the Commerce Department, in collaboration with the local Health Center. The primary objective of this outreach program was to raise awareness among the school students about the importance of proper nutrition, personal hygiene, and making healthy food choices.

The program began with interactive session conducted by the B.Sc NCZ students. The session covered topics such as the food pyramid, the role of different nutrients in the body, and the importance of a balanced diet. The students were engaged through quizzes, games, and informative presentations.

Hygiene plays a crucial role in maintaining good health. The Commerce students demonstrated proper hand-washing techniques, oral hygiene practices, and the importance of keeping their surroundings clean. The students were encouraged to adopt these practices in their daily lives. A

session on healthy eating habits was conducted, where the students were educated about making nutritious food choices.

An open question-and-answer session was held to address any queries or concerns the students had about nutrition and hygiene. This encouraged active participation and engagement.

Informative pamphlets on nutrition, hygiene, and healthy eating were distributed among the students at the end of the program.

Activity No. 5: Healthy Recipe Counter

The Department of Nutrition, in collaboration with undergraduate nutrition students at St. Ann's College, organized a "Healthy Recipe Counter" to commemorate the celebration of National Nutrition Month. This initiative aimed to educate students about the concepts of costing, budgeting, and quantity food production while promoting healthy eating habits. The activity took place every Tuesday and Thursday from 12:00-12:30 in the college quadrangle. During the Healthy Recipe Counter sessions, students were actively engaged in preparing and presenting nutritious recipes. The activity focused on the following key aspects: Students learned how to calculate the cost of ingredients for each recipe, taking into account factors like portion size and market prices. This hands-on experience enhanced their understanding of budgeting in meal planning.

Participants worked in teams to prepare recipes in larger quantities, emphasizing the principles of quantity food production commonly used in institutional settings. This practical experience was invaluable for future careers in nutrition and food service. The nutritional content of each recipe was discussed, highlighting the importance of well-balanced meals and the role of various nutrients in maintaining health.

Students practiced effective communication skills by explaining the nutritional benefits of their recipes to their peers and college staff. This fostered the development of public speaking and presentation abilities.

The Healthy Recipe Counter activity received positive feedback from both participants and the college community. It successfully blended practical culinary skills with important concepts related to nutrition, costing, and budgeting. Through this initiative, students gained a deeper appreciation for the significance of nutritious eating, especially in the context of limited budgets and quantity food production. This hands-on approach to learning promises to have a lasting impact on the future careers of these budding nutrition professionals, equipping them with practical skills and knowledge that will serve them well in their field. The activity will continue to be a regular feature at the college, contributing to the overall health and well-being of the campus community.

Glimpses of Healthy Recipe Counter

Name of the Department: Department of Chemistry

Activity No. 6: Mysteries in Chemistry

Date: 19th October 2022

The Chemistry Club, Department of Chemistry Organized a live show for students titled as "Mysteries in Chemistry", Collaboration with ILM Foundation, and Project Science Academy in Auditorium at 10am on 19th October 2022. The Resource Person for the live show was Dr.RatanToorkey,Head, Department of Chemistry,and ScienceAcademy.

Around 300 students of various disciplines actively participated in Liveshow experiencing the amazing and hidden facts of Chemistry.The show was telecasted on Zoom enabling participants to experience wonders in Chemistry.

Activity No. 8: Health Camp to tribal's of Adilabad

Date: 3rd February 2023

The health camp conducted on 3rd of February 2023, by Dept of History, Mrs.Meeta Joshi,Head of the department and student volunteers is an initiative to integrate awareness of community health and insights obtained from the community of tribals through health surveys. Health is influenced by factors such as community attitudes, the community environment. Health is more than physical well-being, or the mere absence of disease, illness, or injury. It is a range of factors -Economic, social, political, ecological, and physical that add up to healthy, high-quality lives for individuals and communities.

As a part of our health camp, we have conducted a survey and noted down the average weight of a person, blood pressure, sugar and suggested the measures to control it and also gave them proper medication

Activity No. 9: Lake cleaning activity at Mushki Cheruvu, Nanakramguda, Hyderabad

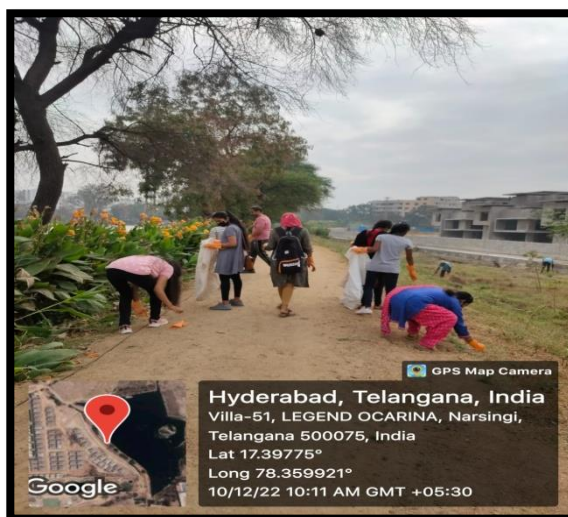

Date: 10th December 2022

Organised by: CHEE's Club in collaboration with Druvansh NGO

Co-ordinator: Mrs. T. Anuradha (HOD)

Lecturer Incharge: Mrs. K. Pranathi

As a part of Outreach activity, Department of Commerce CHEE's Club, in collaboration with Druvansh NGO organised Lake cleaning activity at Mushki Cheruvu, Nanakramguda, Hyderabad on 10th December 2022 for B.Com I Year Students. The event started with a brief introduction of Environment Cleanliness by Mr. Nitish followed by cleaning the lake premises by the students.

Name of the Department: Department of Biochemistry

Activity No. 10: National Science Day Celebrations at Government Schools

Date: 20th to 28th February 2023

Fostering Scientific Curiosity: A Week-Long Celebration of National Science Day 2023

The Department of Biochemistry has been a staunch advocate for science education, and in line with this commitment, it has been commemorating National Science Day on February 28th every year since 2020. In 2023, the department took its celebrations a step further by organizing a week-long series of activities aimed at enriching the scientific knowledge of students in six government schools. These activities included hands-on experiments, interactive teaching kits, and engaging fun activities.

Teaching Kits and Topics:

The key highlight of the celebration was the preparation and utilization of teaching kits by the Biochemistry students. These teaching kits covered a diverse range of topics, ensuring a comprehensive scientific exposure for the participating 7th, 8th, and 9th standard students. The topics included:

Carbohydrate Analysis: Understanding the chemistry of carbohydrates through practical experiments.

Testing Milk Adulterants: Demonstrating methods to identify common adulterants in milk.

Concept of pH: Explaining the significance of pH and conducting experiments related to acid-base reactions.

Chromatography Techniques: Introducing the principles of chromatography and its applications.

Molecular Biology Experiments: Involving the isolation of DNA from cells, offering insights into genetic material.

Activity Execution:

During the week, the Biochemistry students visited the government schools to conduct these educational activities. They organized small groups, ensuring that each student had an opportunity for hands-on learning. The students took on the role of mentors, guiding the 7th to 9th graders through the experiments and concepts.

Fun Activities: In addition to the educational components, the celebration also included various fun activities to ignite curiosity and foster a love for science. These activities included science

quizzes, science-related games, and science-themed art projects. The aim was to make learning enjoyable and memorable.

Outcomes:The week-long celebration of National Science Day 2023 yielded several positive outcomes:

Enhanced Scientific Knowledge: The participating students gained a deeper understanding of various scientific concepts and techniques, igniting their interest in the field of biochemistry.

Hands-On Learning: Hands-on experiments and interactive teaching kits facilitated active learning and made complex scientific topics more accessible.

Mentorship and Inspiration: The Biochemistry students, acting as mentors, inspired the younger students and showcased the possibilities of pursuing a career in science.

Community Engagement: The initiative strengthened the bond between the Department of Biochemistry and the local community, reinforcing the importance of science education.

Joyful Learning: Fun activities infused an element of excitement and joy into the learning process, making it a memorable experience for all participants.

In conclusion, the Department of Biochemistry's week-long celebration of National Science Day 2023 not only enriched the scientific knowledge of young students but also ignited a passion for science. It showcased the power of hands-on learning, mentorship, and community engagement in fostering scientific curiosity and nurturing the next generation of scientists. This annual tradition promises to continue making a meaningful impact on science education in the years to come

Activity No. 11: Beat the Blood suckers

Date: 14th October 2022

An awareness programme was conducted for the school students of Government High School, Bojagutta on 14th October 2022 on the topic “Beat the Blood Suckers”.

The lecture was given by Dr. Tasneem Jahan and Ms. Juvaria Azmath who went to the school with student volunteers of III Year NCZ. The student volunteers had given an extensive explanation on the mosquito vectors, Zika virus, West Nile virus, Chikungunya virus, dengue, and malaria and different preventive measures the students could take to curb the over growing population of mosquitoes. The school students found this programme to be very informative and

wished to know more about Zika virus, West Nile virus, Chikungunya virus, dengue, and malaria and the role they could play in the society to prevent spreading of these malicious diseases.

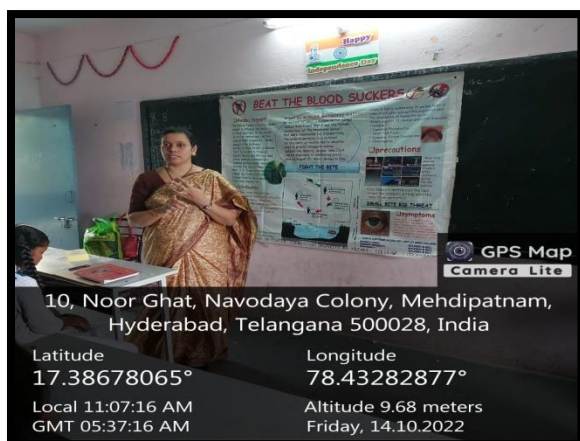

Outcome:

- To identify the different types of mosquitoes.
- To learn about the prevention of diseases spread by mosquitoes like Zika virus, West Nile virus, Chikungunya virus, dengue, and malaria and implementing these measures in day-to-day life.

Number of Student Volunteers:10

Activity No. 12: Visit to N.S.Care Old-age home

Date: 13th February 2023

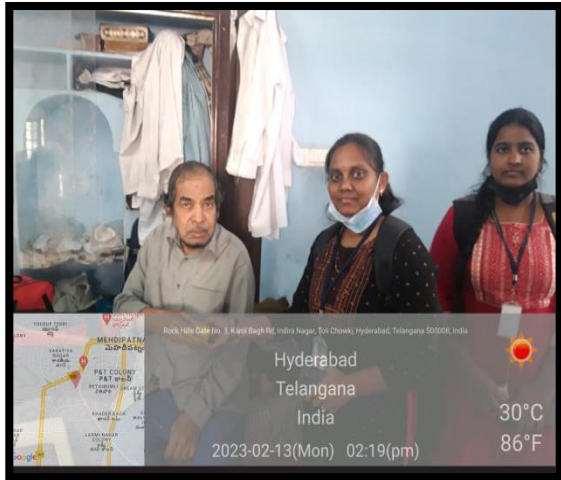

Venue: N.S Care Old Age Home, Mehdipatnam

Ten first year MCA students participated in donating some groceries like rice, salt, pulses, atta, sugar, biscuit packet, adult diapers etc and other essential food items as a generous gesture of charity. To make this happen, some of our co-coordinators collected money from our classmates and purchased all the above mentioned essentials.

On 13th February 2023 one of our faculty along with the 10 students happens to visit N.S.Care Old-age home located in Toli-chowki, Mehdipatnam. When we arrived in the old age home the elderly were void of emotions. They felt very happy seeing us. Happiness was clearly seen on their faces, everyone greeted us with smile. It was a generous and kind gesture initiated by our department in organizing and contributing towards social responsibility. The visit left a deep impact on us.

List of students Participation:

1. 120422864001-D.Vinusha Reddy
2. 120422864002-M.Deepika
3. 120422864010-Gayatri Keerthna

**Activity No. 13: Support to Kasturba Gandhi National Memorial trust (KGNM)
Date: 17th to 19th October 2022**

An outreach program was organised by Dept. Of commerce (P.G) along with students, extend help to Kasturba Gandhi National Memorial trust (KGNM) which has pioneered in many activities, focused on Welfare of Women and children of rural India. The Members in the trust are the victims of trafficking, single parent, Orphan children, mentally retired, old age etc. are given vocational training in various courses, one of them is Making of "PanchagavyaDiyas" this will enable them to develop and overcome their challenges.

Objectives of the program was to help these members in selling and marketing their products by generating revenue.

The students sold 75 sets of diyas and 33 jute bags. All the revenue generated Rs.7590/- was handed over to the Chairman of the trust, Mr. P. Rama Krishna Murthy, Kasturba Gandhi National Memorial trust.

Name of the Department: Department of Microbiology

Activity No. 15: Awareness on Superbugs & Antimicrobial Resistance

Dates: 24th & 25th April 2023

Collaborating Organization: Super Heroes against Superbugs (SaS)

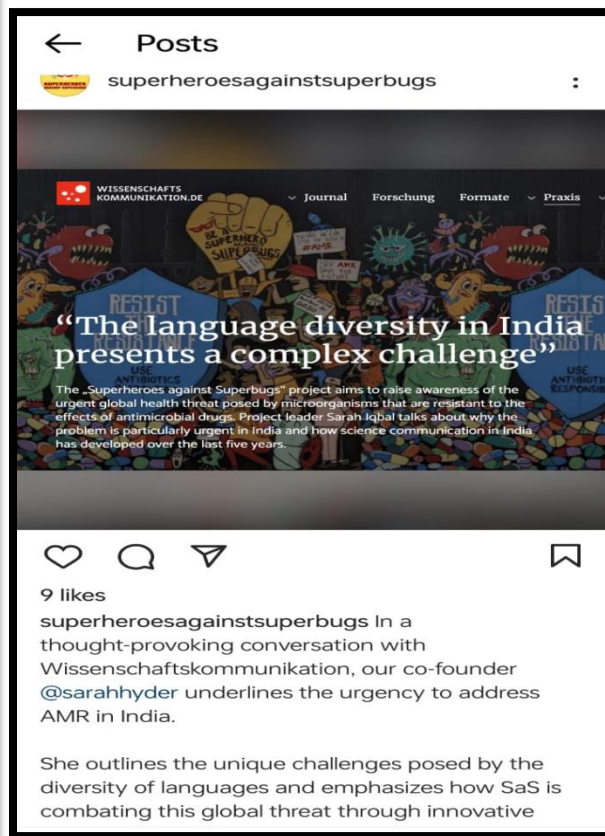

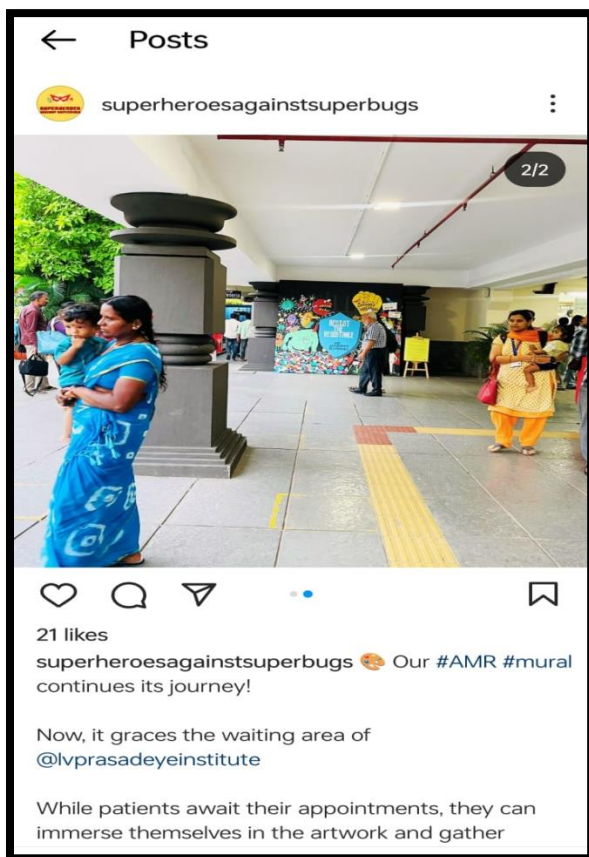

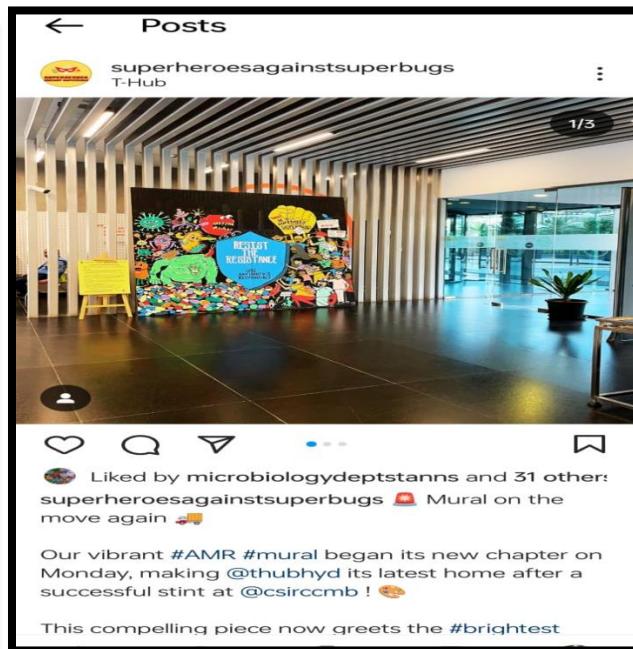

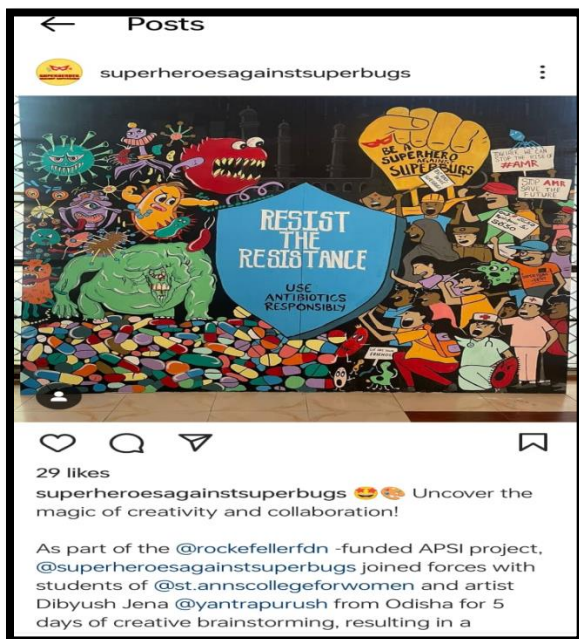

Antimicrobial drug resistance is considered to be the booming topic in the field of medical sciences. Drug resistance could be due to misuse, overdose, and abuse and over the counter usage of antibiotics. Superbugs and super heroes was the theme brought in light by esteemed team of center for cellular and molecular biology (CCMB). St Ann’s college for women has provided platform for the outreach committee of CCMB to organize various events such as mural painting, science skit and quiz.

Eminent scientist from LV Prasad eye institute Dr. Sisinthy Shivaji gave a great talk on causes of drug resistance and their consequences.This was followed by mural painting by students which was showcased at various places of Hyderabad to bring about awareness on drug resistance among individuals.
